Re: Universal Propulsion Company's Trust Agreement
Account Number 0900530400
Universal Propulsion Company, Talley Industries,
Phoenix, AZ, EPA I.D. Number AZD980814479

Dear Mr. Habura:

Pursuant to Section 3006 of the Resource Conservation and Recovery Act (RCRA) on December 04, 1985, the Environmental Protection Agency (EPA) granted final authorization to the State of Arizona, Department of Environmental Quality, to operate the State's hazardous waste program, subject to the authority retained by EPA in accordance with the Hazardous and Solid Waste Amendments of 1984 (HSWA) [Federal Register, Vol. 50, No. 224, Wednesday, November 20, 1985, page 47736 enclosed].

Thus, RCRA financial responsibility mechanisms required under 40 Code of Federal Regulations 264/265 Subpart H and the Arizona Administrative Code ("A.A.C.") R18-8-264.J, 264.K, and 264.L and R18-8-265.K must now be payable to the Arizona Department of Environmental Quality rather than the EPA Regional Administrator.

Since the Universal Propulsion Company, Inc. has entered into a new Trust Agreement with M&I Marshall Ilsley Trust Company of Arizona, and said Trust has been established for the benefit of the Arizona Department of Environmental Quality, EPA requests that you release the funds in the original Trust, Account Number 0900530400 (referred to as the Wells Fargo Trust), to the Universal Propulsion Company, Inc.

Sincerely,

A handwritten signature in dark ink, appearing to read "J. McCarroll", is written over the typed name.

John McCarroll, Chief
Office of Permits and
Technical Assistance

Enclosure

carbon monoxide complies with applicable criteria based on these considerations:

(a) A temporary special purpose monitoring site recorded no violations in an expected high concentration area downwind during four months in 1983.

(b) the proposed attainment area is not a part of a U.S. Bureau of Census contiguous urbanized area.

(c) the rural nature of the area leads EPA to believe that no violation has or would occur, and

(d) sources in the area do not contribute significantly to measured or modeled violation in the urban core.

EPA is publishing this action without prior proposal because the Agency views this as a noncontroversial action and anticipates no adverse comments. This action will be effective 60 days from the date of this Federal Register unless, within 30 days of its publication, notice is received that adverse or critical comments will be submitted.

If such notice is received, this action will be withdrawn before the effective date by publishing two subsequent notices. One notice will withdraw the final action and another will begin a new rulemaking by announcing a proposal of the action and establishing a comment period. If no such comments are received the public is advised that this action will be effective January 21, 1986.

Final Action

EPA approves the redesignation since the proposed attainment area has satisfied EPA policy and section 107 of the Clean Air Act.

Regulatory Process

The Office of Management and Budget has exempted this action from the requirements of section 3 of Executive Order 12291.

Under section 307(b)(1), of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by January 21, 1986. This action may not be challenged later in proceedings to enforce its requirements (See 307(b)(2)).

Under 5 U.S.C. 605(b), I certify that this action will not have a significant economic impact on a substantial number of small entities. (See 48 FR 8704).

List of Subjects in 40 CFR Part 81

Air pollution control, National parks, Wilderness areas.

Dated: October 30, 1985.

Lee M. Thomas,
Administrator.

PART 81—[AMENDED]

Part 81 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart C—Section 107 Attainment Status Designations

1. The authority citation for Part 81 continues to read as follows:

CALIFORNIA—CO

Designated area	Does not meet primary standards	Cannot be classified or better than national standards
San Joaquin Valley Air Basin (SJVAB): Fresno County: (within Fresno Urbanized Area) ¹	X	
Fresno County: (outside Fresno Urbanized Area) ¹		X

¹ For a description of Fresno Urbanized Area, please see publication date.

[SW-9-FRL-2928-3]

Arizona; Final Authorization of State Hazardous Waste Management Program

AGENCY: Environmental Protection Agency.

ACTION: Notice of final determination on Arizona's application for final authorization.

SUMMARY: The State of Arizona has applied for final authorization under the Resource Conservation and Recovery Act (RCRA). EPA has reviewed Arizona's application and has reached a final determination that Arizona's hazardous waste program satisfies all of the requirements necessary to qualify for final authorization. Thus, EPA is granting final authorization to the State to operate its program. In lieu of the federal hazardous waste program in its jurisdiction, subject to the limitations imposed by the Hazardous and Solid Waste Amendments of 1984 (Pub. L. 98-616, November 8, 1984) (HSWA).
EFFECTIVE DATE: Final Authorization for Arizona shall be effective at 1:00 p.m. on December 4, 1985.

FOR FURTHER INFORMATION CONTACT: Philip Dobel, Chief, Waste Programs Branch, U.S. EPA Region 9, 215 Fremont

Authority: 42 U.S.C. 7401-7642.

2. In § 81.305 the attainment status designation table for carbon monoxide is amended by revising the entries for "Fresno County", under the "San Joaquin Valley Air Basin (SJVAB)" to read as follows:

§ 81.305 California.

Street, San Francisco, CA 94105 (415) 974-6119 (FTS: 454-8119).

SUPPLEMENTARY INFORMATION:

I. Background

Section 3006 of the Resource Conservation and Recovery Act (RCRA) allows EPA to authorize State hazardous waste programs to operate in the State in lieu of the Federal hazardous waste program. To qualify for final authorization, a State's program must (1) be "equivalent" to the Federal program, (2) be consistent with the Federal program and other State programs, and (3) provide for adequate enforcement (Section 3006(b) of RCRA, 42 U.S.C. 9620(b)).

On October 31, 1984, Arizona submitted a complete application for final authorization. On March 20, 1985, EPA published a tentative decision announcing its intent to grant Arizona final authorization. Further background information on EPA's tentative decision to grant final authorization appears at 50 FR 11180, March 20, 1985.

In addition to announcing its tentative determination, EPA announced the availability of the application for public comment and the dates of public hearings on the application. The public hearings were held in Phoenix on April 18, 1985 and Tucson on April 19, 1985.

II. Response to Public Comments

On March 20, 1985, (50 FR 11180), a notice was published in the Federal Register inviting the public to offer
